

	
Zoonoses 2020 – International Symposium on Zoonoses Research	
„Zoonoses as a global challenge “	
<i>Preliminary Online Program</i>	
Thursday, October 15, 2020	
14:30	Session Opened (time for discussions, Poster viewing)
15:30	Plenary Session Welcome Note: BMBF, Stephan Ludwig Keynote I: Stephen Higgs (Kansas State University, USA) <i>“Emergence and Reemergence of Zoonotic Viruses”</i>
17:00	Posterslam I
18:00	Break (virtual poster viewing)
19:00	Plenary Session Keynote II: Marm Kilpatrick (University of California, USA) <i>“Land use and climate change drive transmission of vector borne zoonotic diseases”</i>
19:45	Official End of first day
20:15	Session closed
Friday, October 16, 2020	
10:00	Session Opened (time for discussions, Poster viewing)
11:00	Plenary Session Keynote III: Kirsten Bos (Max Planck Institute for the Science of Human History, Germany) <i>“Genomic reconstructions of ancient zoonotic pathogens”</i>
11:45	Posterslam II
12:45	Break (virtual poster viewing)
13:15	Plenary Session Keynote IV: Christian Drosten (Charité Berlin, Germany) <i>“COVID-19”</i>
14:00	Closing remarks (Martin Groschup)
14:15	Official End of Meeting
14:45	Session closed

Topics poster slams:

- Antimicrobial Use and Resistance
- Bioinformatics, Data assessment
- Ecology of Zoonotic Infections
- Free Topics
- Vaccines, Innate and Adaptive Immune Response
- New and Re-Emerging Zoonotic Diseases
- Novel Methods, Diagnostics and NGS
- Parasites
- Pathogen-Cell Interaction
- Pathogenesis and Modelling of Zoonotic Diseases
- Public Health
- Risk Assessment, Epidemiology and Modelling
- Covid-19/ SARS-CoV-2
